Dr. Edward O. Thorp
New Mexico State University
University Park, New Mexico

Dear Dr. Thorp:

Per your recent inquiry, we are enclosing six sets of the Univac 21 Formula for Blackjack.

In answer to your questions, yes, the strategy for standing and drawing make a distinction between hard and soft hands. And, the strategy was calculated by Univac in 1959.

We thank you for thinking of the Showboat -- and wish you every success in your project.

Cordially,

Bette Soehngen
