Summary: "Se trata de una larga reseña y comentario del libro de J. Hillis Miller *Actos de Habla en la Literatura*, un importante libro de teoría y crítica literaria que discute la teoría y práctica de los actos de habla de J. L. Austin, Jacques Derrida, Paul de Man, y Marcel

Proust. Se comentan las nuevas ideas de Miller a la luz de la teoría pragmatista de la interacción comunicativa y de la interpretación crítica expuestas en otros trabajos por J. A. García Landa. Es un tema de interés para lingüistas, filólogos y filósofos interesados en la hermenéutica, la teoría de la recepción y la ética de la literatura y la crítica."

"This is an extensive review and commentary of J. Hillis Miller's book *Speech Acts in Literature*, a major theoretical and critical book which discusses the speech act theory and practice of J. L. Austin, Jacques Derrida, Paul de Man, and Marcel Proust. Hillis Miller's insights are discussed in the light of the pragmaticist theory of communicative interaction and of critical interpretation expounded elsewhere by J. A. García Landa. The discussion is relevant to students of linguistics and to those interested in hermeneutics, reader-response criticism and the ethics of literature and criticism."

Hoepfinger, Erin Leah. "Discovering Jonathan Swift through Derrida, Miller, and de Man." M. A. Thesis, State University of New York at Buffalo, 2008. 67pp. Abstract in *Masters Abstracts International* (December 2008), 46(6).

"Summary: This query into the works of Swift as seen through deconstructionist theory will lead readers through a search for Swift's supplement in *Gulliver's Travels*, incorporating a variety of deconstructionist theories, including an exploration of prioritization of written versus spoken word and iterability and the inextricable similarities between satire, irony, and the originary lack, or gap filled by the supplement. Next, the paper moves to discovering the performative dimensions of "A Modest Proposal" in light of J. Hillis Miller's exposition on the three ways in which literature can act as an event, the performative dimension of the work as a whole, and the ways in which the speech act is disguised within literature through conforming to convention, circumstance, authority, and understanding between two or more people. In the final chapter, the reader will find the myriad ways in which *The Battle of the Books* embraces the qualifications for a text to become an allegory within the bounds of Paul de Man's philosophies."
