

Griever Policy for Second Life

The UCI Libraries is committed to keeping Anteater Island a safe and fun place to foster creativity through course-related instruction. UCI Libraries assumes all students have read, understood and signed the Student MOU for Participation in Second Life and are aware of the UCI Electronic Communications Policy (<http://www.ucop.edu/ucophome/policies/ec/html/pp081805ecp.html>). The UCI Libraries also expects users to uphold the Second Life Community Standards (<http://secondlife.com/corporate/cs.php>). Should the UCI Libraries become aware of the compromise of such standards, the UCI Libraries will take such action as:

- Contacting the appropriate instructor
- Reporting the abuse to Linden Labs
- In rare cases, removing all items on an affected parcel of land.
