nurturing training in Translational Science, and teaching students how to "fast-track" promising research discoveries into clinical trials. Finally UCI's health education does not end with students graduating. The campus shares health information with the public through bulletins, news releases, and classes. The use of open access journals and the development of open access UCI and UC digital archives for research papers and experimental data means that the fruits of UCI's vibrant research community are increasingly available to everyone.

## UCIRVINE | UCI LIBRARIES

Design and Production Design Services, UCI Libraries Printed 2014. © UC Regents. We are deeply grateful to the individuals who have established the following Named Library Funds.

**Verle and Elizabeth Annis Library Endowed Fund** Research Collections in Early California History

Carole Creek Bailey Library Endowed Fund Research Collections in Social Sciences and History

Ralph W. Gerard Library Endowed Fund Research Collections

Forest J. and Dolores S. Grunigen Library Endowed Fund Research Collections

Nors S. Josephson and Waltraut Abstein-Josephson Library Endowed Fund Research Collections

Adolph Kroch Library Fund General Support

Carl Kroch Library Endowed Fund Library Exhibitions

Jack Langson Library Funds General Support

Hector D. Laudati and Caroline A. Laudati Library Endowed Fund A gift by Rosalyn M. Laudati, Ph.D. Gen<u>eral Support</u>

**Nellie Ansley Reeves Award Library Endowed Fund** Undergraduate Research Fellowship Award

**Sylvia Holden Robb Library Endowed Funds** General Support and Research Collections

Helen Russell Library Endowed Fund General Support

Nancy Lee Ruyter Library Fund Dance Collections

Salinger Family Library Endowed Fund Research Collections

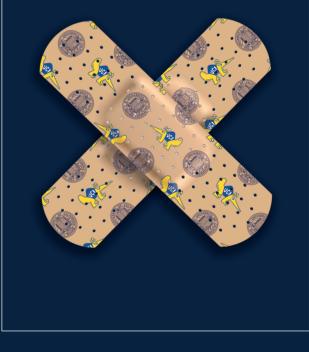

John and Elizabeth Stahr Library Fund Research Collections

**Raymond L. Watson Library Fund** Regional History Collections

To view a full listing of library donors, please see: http:// partners.lib.uci.edu. Gifts to the Libraries help preserve the past and are an investment in the future of our university, community, and state. For information about supporting the UCI Libraries, please call 949.824.4651.

## SPRING EXHIBIT | LANGSON LIBRARY

APRIL 2014 - OCTOBER 2014 MURIEL ANSLEY REYNOLDS EXHIBIT GALLERY ۲

۲

Welcome to the UC Irvine Libraries' spring exhibit, Healing U: Health Education at UCI.

Healing U showcases the evolution of UCI's innovative health education programs that are revolutionizing how

Dr. Ralph Clayman

tomorrow's doctors, nurses, public health, and pharmaceutical sciences professionals are being trained, and are shaping the future of healthcare in our community.

The exhibit illustrates the fascinating history of UCI's School of Medicine, the emergence of the Nursing Science Program, and the expansion of the Program in Public Health and

Medical education at UCI had two beginnings. One occurred when the UCI College of Medicine opened April 5, 1967. But its earlier

educating students about health at UCI have grown from only a School of Medicine to the addition of a new Department of Pharmaceutical Sciences and new programs in Nursing Science and Public Health. The growth of these offerings has been encouraged by an awareness of the complexity of solving health issues for both individuals and society.

roots were planted in the founding of the Pacific School of Osteopathy in 1896 which operated until 1966. In recent years the programs the Department of Pharmaceutical Sciences. It portrays the latest medical education tools and techniques, the implementation of evidencebased care, and emerging issues in health and society. The important role of library resources in supporting this learning environment is also highlighted.

We are delighted to have Ralph Clayman, Dean of the UCI School of Medicine, as the featured speaker for our exhibit opening event on April 29, 2014.

I hope you enjoy the exhibit and return to view others in the future.

## Lorelei Tanji

University Librarian

The need for nursing professionals in California has been acutely felt since the late 1980s. The establishment of a professional program at UCI meets an important regional need. The addition of a Master's program in Nursing as well as the recent advent of a Doctoral

program in Nursing allows UCI to help create professionals who can operate in today's complex health

The Program

in Public Health is focused on creating, integrating, and translating population-based

knowledge into preventive strategies for reducing the societal burden of human disease and disability through excellence in research, education, and public service.

The Department of Pharmaceutical Sciences creates graduates who can combine a broad range of scientific disciplines that are critical to the discovery and development of new drugs and therapies. Their Medicinal Chemistry and Pharmacology (MCP) graduate program is an
