Dear Mr. Liu:

Dr. William Wong, East Asian Librarian has informed us that a major collection of Chinese gift books from the Evergreen Publishing and Stationery Company has recently been delivered to the Acquisitions Department, UCI Libraries.

We understand that all individual titles in this collection were selected and examined by Professor Michael Fuller of the Department of East Asian Languages and Literatures at a current Chinese publication exhibition held in Monterey Park, organized and sponsored by your company. These materials are a timely addition to our library holdings and will further enhance the value and resources of our East Asian Collection to faculty, student scholars and visiting researchers.

Dr. Wong also indicated that this collection contains 36 titles in 75 volumes. We are very grateful for your generous donation and your enthusiastic support for our educational endeavors.

Thank you again, with our best wishes.

Sincerely,

A handwritten signature in cursive script that reads "Joanne R. Euster".
