NIH Public Access Policy Summary

The National Institutes of Health Public Access Policy ensures the public has access to published results arising from NIH-funded research by requiring authors to submit journal articles to the National Library of Medicine's digital archive PubMed Central.   See http://www.research.uci.edu/ora/sp/NIHopenaccess.htm.

☑	The Public Access Policy requires posting of peer-reviewed articles based on research: • Funded by an NIH <u>grant or cooperative agreement</u> active in Fiscal Year 2008 (October 1, 2007-September 30, 2008) and beyond; • Funded by an NIH <u>contract</u> signed on or after April 7, 2008; • Funded by the NIH intramural program; or • As an NIH employee.
☑	Peer-reviewed articles, including all graphics and supplemental materials that are associated with the article, must be posted to PubMed Central within <u>12 months</u> after publication.
☑	Investigators must ensure that the copyright transfer or other agreement signed with a publisher allows articles to be posted to PubMed Central. Insert language suggested by NIH or UC to revise a publishing agreement. See the UC letter to publishers at http://www.research.uci.edu/ora/forms/sp/NIHPubMedPublisherLtr-3-6-08.pdf.
☑	Articles may be submitted by investigators or their staff, or by the publisher. See http://publicaccess.nih.gov/submit_process_journals.htm for a list of journals that will automatically post to PubMed Central if NIH funds are involved. To submit articles directly to the NIH Manuscript Submission (NIHMS) system, go to http://www.nihms.nih.gov. Either way, investigators must review and approve the manuscript to complete the transfer to PubMed Central.
☑	Beginning May 25, 2008, articles cited in NIH applications, proposals and progress reports that fall under the Policy and were authored or co-authored by the investigator must include the PubMed Central reference number (PMCID). Include the NIHMS reference number (NIHMS ID) if a PubMed Central number is pending.
